PROFILE

I am dedicated Frontend Developer student from Boisar, Mumbai, with a strong foundation in web development and a passion for building interactive, user-friendly web applications. With expertise in HTML, CSS, JavaScript, and React, I am developed several projects that demonstrate his skills in fetching and displaying data from APIs, creating dynamic user interfaces, and implementing sorting algorithms. He is proficient in using modern web development tools and libraries such as Axios, Chakra UI, and React Router, and is committed to continuous learning and improvement. Known for his problem-solving abilities, attention to detail, and enthusiasm for technology, I am well-equipped to contribute effectively to any web development team.
